

Project ECHO®
Ontario Bariatric Network

Registration Now Open!
New Series Starts January 2020

Do you know how to work with your patients living with obesity who have received specialty care from a Bariatric Centre of Excellence (BCoE)?

Project ECHO OBN is an innovative technology enabled collaborative learning program where primary care providers and an interdisciplinary team of clinicians from the BCoE work together to discover new ways of providing care more effectively to patients with obesity.

Build clinical expertise by joining our six-week series to discuss patient cases from your practice and learn about leading surgical and medical treatment options for patients with obesity, strategies to identify and prevent potential post-operative complications after bariatric surgery as well as tools and resources to assist you to manage obesity related issues seen in primary care.

At The Ottawa Hospital

2020 Session Dates and Topics:

Jan 15	Medical Management of Obesity
Jan 29	Post-Operative Care of Bariatric Surgical Patients
Feb 12	Assessment and Management of Nutritional Deficiencies
Feb 26	Impact of Bariatric Surgery on Mental Health
Mar 11	Medication Management Following Bariatric Surgery
Mar 25	Weight Regain Following Bariatric Surgery

Hosted By:

- Dr. Nicole Kolosvari
- Aspen Viets
- Jennifer Brown
- Shawna McCusker
- Bryan Feenstra

Time: 12:00 – 1:30

Sessions begin January 2020 and are open to primary care providers and allied health professionals working in primary care settings. There is no cost to attend. Space is limited. Register today at <https://obn.echoontario.ca>

This learning activity approved by McMaster University Continuing Health Sciences Education Program is a one credit per hour group learning activity that meets the certification criteria of the College of Family Physicians of Canada (Mainpro+) and also an Accredited Group Learning Activity as defined by the Maintenance of Certification program of The Royal College of Physicians and Surgeons of Canada.

ECHO OBN is fully funded by the Ministry of Health and Long-Term Care
